What is the bin service?

This is a small business you can run. It is your business.
We help you start it and grow it.

You take care of bins.

You help people with their wheelie bins each week.
This is a real job that pays you money.

You move the bins.

You take the bins out to the kerb on bin night. The
next day you bring the bins back in.

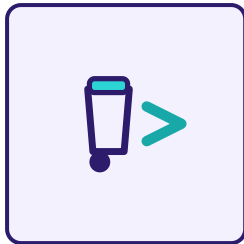

You earn money.

People pay you to do this every week. The more
customers you have, the more you earn.

THE BIG IDEA

**It is your business. You run it and build it.
We are beside you.**

What you will do

Take the bins out.

On bin night you wheel each customer's bin out to the kerb.

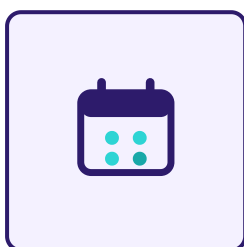

Bring the bins back.

The next day you bring the bins back to the house.

Wash the bins.

Sometimes you give the bins a wash so they are clean and smell better.

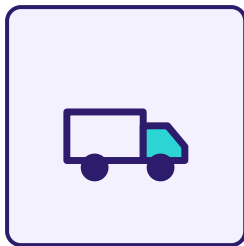

Remember bin days.

Each customer has their own bin day. You keep track of who needs you and when.

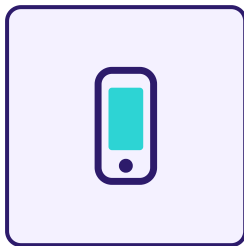

How we help you

Our support workers help you. They work next to you. They do not do it for you.

We help with transport.

A support worker can drive you to your customers.

We help you talk to customers.

We help you take bookings, send messages, and ask for your money.

We help you do more over time.

You start with help. As you feel more sure, you do more on your own.

REMEMBER

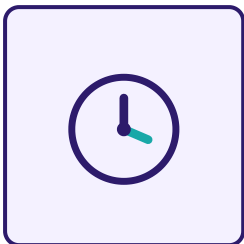

You are the boss. We are your team.

What you will learn

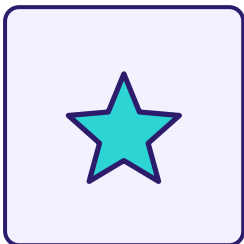

Talking to people.

You learn how to meet customers and talk with them.

Being on time.

You learn to do your job each week on the right day.

Running a business.

You learn how to look after money and grow your own business.

Want to try it?

A word that can be tricky

Customer.

A customer is a person who pays you to take care of their bins.

Micro enterprise.

This means a small business that one person runs. The bin service is a micro enterprise. It is yours.
