

BACK-OF-HOUSE

PC MAINTENANCE

ABOUT THIS JOB

Supported by your Support Worker, you will keep the gaming PCs and consoles running. You work through the machines one at a time, checking each one starts up, blowing the dust out, wiping down the keyboards and headsets, running the updates and setting up any new software. It is the same round of checks every shift, and that is the point of it. You do not have to know how to build a PC. You get shown once and pick it up as you go.

WHAT YOU DO

- » Start up every machine and check it runs right
- » Blow the dust out of the fans and filters
- » Wipe down the keyboards, mice and headsets
- » Install new software and run the updates
- » Log anything broken in the Staff App

WHY THIS JOB MAY SUIT YOU

- » You are happy working on your own
- » You like computers and how they work
- » You like fixing things yourself
- » You like a job with a checklist
- » You notice when something is off
- » You want experience for your resume
